## MOTTO

## HANNAD Women Welfare Associations

Is non- governmental, non profit, non political organization Human rights and humanitarian organization that was founded in 20 February 1996 by a group of intellectual and competent local women, HANNAD is among the 32 members of Nagaad Umbrella Organization and was founded in 1996. It was founded to support the women who had suffered as a result of the prolonged civil war in and the subsequent factional conflicts in Somaliland, which saw a total destruction of all forms of infrastructure. As at the time of formation, the membership was 9 women. The number of the members has since increased to 15, including 5 men.

HANNAD is devoted to achieve its core strategic objectives and therefore: advocating for humanitarian assistance to save seriously affected society

- Promote and ensure that fundamental human rights of women is fully respected and protected
- To upgrade education, health facilities, sanitation and also infrastructures services to local women communities.
- To eradicate the practices of FGM/HIV.

### Vision

We envision a future in which Somaliland Women and orphanage children are well informed, education, health and economically productive in such away they can contribute to social and economic development of the active.

Mission is to exist to empower local women and orphanage children through providing a variety of development programs including education, skill training, awareness raising and income generating activate.

## What we do to realize our vision?

### a. Human rights

HANNAD supports for human rights in general and with special focus on women and child rights as guardian in the protection of International Human Rights conventions. Known the truth that Somaliland is a male-dominated society, HANNAD Envision a future in which Somaliland women are well informed, health and economically productive in such away they can contribute to social and economic development of the city And advocates in the following issues about women and girls:

- Promotion of women's participation in decision-making process.
- Improving and supporting the minority people, and protecting their basic rights.
- Providing orphanage children and their families for education, health and their development.

- Eradication of pharouic FGM.
- Girl child education.
- FGM custom, which often presents health risks to girls and women.
- Cultural stereotypes that persuade male dominance.

## b. Environment

HANNAD is conscious of the significance of environment to human life. Its intervention in this section is composed of several activities in awareness and action such as:

- Tree planting project in the Hargeisa General Hospital supported by HBF through Tisqaad Environmental Network/Nagaad Umbrella in 2003

This is HANNAD members and another organizations group discussion.

Jama and Mr. Lee during awareness's of HIV/ Aids.
